General meeting		2nd Friday	Apr 11th
Busy Bee at track		3rd Saturday	Apr 19th
Committee Meeting		3rd Monday	Apr 21st
Club run day		Last Sunday	Apr 27th

It is with regret that I have to advise members of the passing of Malcolm Thompson in early January after a long illness.

Alan and Marge Marshall have decided to move residence, only problem is that it is to U.K. Alan is going to have difficulty attending meetings. We wish them all the best in their endeavours. A list of equipment, models and materials that Alan does not want to take with him is to be listed in due course.

Many thanks go to the members who assisted with the Kids Summer Carnival at Perry lakes . Unfortunately it was a disaster for all who attended with crowds of a mere handful attending over an 8 day period. -- We just have to put it down to experience !!!!!!!

Do you live in the City of Stirling ???? If you have any passes to the waste disposal that you can spare, PLEASE pass them on to the committee as we no longer have free access to the tip..

Note that the March run day is on Easter Saturday, as it is to be an evening run, Start will be mid afternoon with a BBQ and running til late. Make it a day to remember..

SPECIAL NOTICE !

At the Annual General Meeting To be held at the Vasto Club, Vasto place at 7:45pm , there will be a Special Meeting to effect some changes to the constitution, This is necessary because of our insurance policy, being nation wide, with all society's participating, fees fall due on the 1st of January. It is essential that we have a large turn out for this important event.

Remember that all positions on the committee fall vacant and nominations should be lodged with the secretary, prior to the meeting, although nominations will be accepted from the floor.

Details of the amendments were previously sent to all members by hon secretary.

Also proposed is an amendment to section 14 of the constitution

"The executive of the committee must have served one term as committee member to be eligible for nomination to the executive". change "must" to should..

There is to be an increase in subscriptions due at the end of the year, this has been brought about by continually rising costs, the latest being an increase from \$2-00 to 7-00 per person going to the AALS for administration.

A call from Australian Model Engineer

The magazine has asked for articles from modellers, there is no pay but you will have your name immortalised.

On the same subject, the committee has been a bit disappointed with the lack of projects being brought to meetings, PLEASE let us see what you have under wraps, most of us are genuinely interested in what you are doing.

The Hobby Spectacular has come and gone. The Rotary club of Floreat who organised the event had constructed a bridge over the track into the centre area, where we put on a display. Jim Hardman took his gauge 1 locomotives, Dougs 3.5" locos, my vertical boiler, Dick's Simplex and several other peices created an interest. Overall the event was a success. A bit of goss at the next meeting (remind me).

Don't forget to nominate for the committee !!!!!
